

Please check in with any teens you know who are applying!

**Hk Maker Lab applications
are due one week from today, 3/28 at 11:59pm!**

If you know of any 11th and 12th grade students who are applying, please check in with them to make sure they have everything they need to get their application in on time.

The Hk Maker Lab is an intensive six-week summer program to learn the foundations of design led by Dr. Aaron Kyle in partnership with Columbia University

School of Engineering and Applied Science. Focusing on addressing a health problem, participants will design, prototype and test a biomedical device and develop an associated business plan. The program will culminate in a presentation to leading executives from the biomedical community.
