

Inspiring kids in STEAM across all five boroughs

**Keep us in mind for your year end giving
Help us provide hands-on science for every
kid!**

Throughout the pandemic we have tried our best to provide hands-on science to the students who need it most. Our flexibility has allowed us to continue programming from the height of the pandemic and we plan to continue in 2022, wherever this pandemic takes us next. Your donations help us to provide hands-on science clubs for students who otherwise wouldn't have the opportunity.

- [A donation of \\$75](#) will provide a HYPOTHEkit - all the supplies and materials a child needs to do all the projects during a seasons
- [A donation of \\$150](#) will sponsor one child to participate in HYPOTHEkids Science Clubs
- [A donation of \\$2,500](#) will fully fund a 15 week hands-on science club for up to 25 children

Anything you give will help inspire future thinkers, creators, and questioners who might not otherwise get this chance. Getting students interested in STEM at a young age is crucial - we're ready to take on the challenge. Will you help us?

Wishing you happy and healthy holidays.
