

Please check in with any teens you know who are applying!

**NY Bioforce applications
are due tomorrow 3/1 at 11:59pm!**

NEW YORK
b i o f o r c e

If you know of any 11th and 12th grade students who are applying, please check in with them to make sure they've gotten their applications in on time.

NY Bioforce is designed for high school students who are interested in life sciences research. It combines an intensive lab training program with internship opportunities at institutions including Columbia University, Weill Cornell Medicine, and Memorial Sloan-Kettering Cancer Center. Bioforce students leave our program

prepared for higher education in STEM fields, and to ultimately join the workforce in essential life sciences research.

Sponsor a HYPOTHEkids Science Club!

HYPOTHEkids Science Clubs are free afterschool clubs for students who live in NYCHA housing, are children of essential workers, or who live in shelters. If your company has philanthropy initiatives, for \$2600, we'll match your company with a club, provide you with regular updates about what the students learn, and any anecdotes they want to share!

When the weather improves, we also plan to partner with [Street Lab](#) to offer free outdoor clubs for kids all around NYC! We'd love your support to sponsor an outdoor Street Lab club, which is \$9950. If you have questions, please reply to this email!

Help inspire the future. Donate to provide a foundation of STEAM for the next generation of thinkers, creators, and questioners.
