

Our high school students have been hard at work

You're Invited to the 2020 Pitch Event

You are cordially invited to attend the 2020 Hk Maker Lab Final Presentation Event, which will be held via **Zoom at 5 p.m. on Thursday, August 20th**. Each summer, high school students from throughout the city come to Columbia's Department of Biomedical Engineering to learn the biodesign process and apply it to problems of their identification. The students then design solutions to these problems, create testable prototypes, and form business plans related to their innovations.

While the COVID-19 pandemic necessitated a shift to an entirely virtual program, our students have nonetheless worked tirelessly to hone and apply their new design skills. The final presentations are a wonderful opportunity for our talented young innovators to display their design skills to friends, family, teachers, and their communities. We very much hope that you will be able to join us! Use the link below to RSVP for the event. You will receive the Zoom call information when you

register.

We look forward to seeing you on 8/20!
